Contents of Volume 6

PERCEPTION AND PERFORMANCE

- Cross-modal correlations of the perceived durations of auditory and visual stimuli by M. Loeb, I. Behar and J. S. Warm, 87
A restricted random series of numbers by H. Friedman, 311
VARGUS 9: Computed stimuli for schema research by S. H. Evans and M. R. Mueller, 511
Preliminary findings on some effects of very fast sequential input rates on perception by M. S. Mayzner, M. E. Tresselt and A. Cohen, 513

PSYCHOPHYSICS

- Bisensory signal detection by M. D. Suboski, 57
Sensory contrast effects in the judgment of lifted weights by Maureen Y. Williams, J. Ross and V. Di Lollo, 137
Stimulus saliency and anchoring: Temporal and end stimulus effects by J. Bieri, Kay Kujala, and A. L. Atkins, 145
Temporal context effects with two judgmental languages by W. G. Braud and S. W. Holborn, 151
Photic facilitation of tonal signal detection in a forced-choice situation by W. H. Watkins, 477

FORM PERCEPTION

- Figural after-effects, rate of "figure-ground" reversal, and field dependence by L. Immergluck, 45
Individual differences in susceptibility to visual backward masking by W. N. Dember and A. Neiberg, 49
Recognition of human faces from isolated facial features: A developmental study by A. G. Goldstein and E. J. Mackenberg, 149
Resistance to an optical illusion, figural after-effects, and field dependence by L. Immergluck, 281
Stability of error distributions within tachistoscopic patterns by E. R. Harcum and N. F. Smith, 287
Identical figures, exposure time and disappearance phenomena under reduced stimulation conditions by R. C. Tees and Linda K. More, 289
Separation thresholds for bar targets presented with color contrast only by H. P. Bishop, 293
Backward visual masking as a function of average uncertainty of the masking pattern by R. E. Fitzgerald and R. Kirkham, 469
Forced-choice form recognition during binocular rivalry by R. Fox and R. Check, 471

DEPTH PERCEPTION

- Effects of stimulus-numerosity upon distance estimates by J. C. Baird, 133

- Effects of stimulus-heterogeneity upon distance estimates by J. C. Baird, 135
Adaptation to displaced vision measured with three tests by Olivia Shaffer and H. Wallach, 143
Some geometric bases for perceived slant by B. E. Dunn, 147
Complex stimuli and apparent motion by T. S. Ball and W. E. Wilsoncroft, 187
Depth information in single triangles and arrays of triangles by H. R. Flock, J. H. Tenney and D. Graves, 291
Adaptation to displaced vision contingent upon vibrating stimulation by J. H. Kravitz and H. Wallach, 465

SKIN SENSES

- Recording of tactile observing responses for the study of selective attention by S. Rydberg, R. Kashdan and T. Trabasso, 197
The effect of threatened shock upon pain threshold by Diana R. Haslam, 309
Field-dependence and form discrimination by G. M. Vaught and J. Ellinger, 357
A developmental study of tactful discrimination in blind and sighted children and adults by Anne D. Pick and H. L. Pick, Jr., 367

PERFORMANCE

- Latency of self-administered shock as a function of its intensity and probability by R. D. Hare, D. L. Krebs, T. D. Creighton and W. M. Petrusic, 79
Anxiety and arousal: A study of two-flash fusion and skin conductance by R. J. Rose, 81
Incubation of anxiety: Effect on temporal generalization by O. Desiderato, Judith M. Foldes and Joan S. Gockley, 139
The effect of food deprivation and expectancy on heart rate by R. Buckhout and T. Grace, 153
Sleep during the early morning by W. B. Webb, H. W. Agnew, Jr., and H. Sternthal, 277
The effects of anxiety on motor-steadiness in competitive and noncompetitive conditions by G. M. Vaught and S. E. Newman, 519

REACTION TIME

- Fast guesses in choice reaction time by R. Ollman, 155
Reaction time as a function of arousal and anxiety by S. Nishisato, 157
Auditory reaction time as a function of stimulus intensity and rise time by J. B. Grier, 307
Effect of unexpected increase in stimulus intensity on reaction time of hand withdrawal by A. P. Purohit, 387
Stimulus change properties of the RT ready signal

- by C. K. Adams and I. Behar, 389
The influence of stimulus uncertainty in a reaction time situation by P. Tolin, 473

HUMAN LEARNING AND THINKING

- An approximate method for controlling delay intervals in subject-paced group learning experiments by E. Z. Rothkopf, 85
Goal and error training methods in the learning of a positioning response by J. L. Sulzer and C. M. Levy, 179

CONDITIONING

- Intertrial activity, awareness, and verbal conditioning of children by R. Wong, Jo Ann Harrison and Helga Stopper, 55
Verbal conditioning: Reinforcement or discriminability? by Sheila L. Hunt and W. F. Battig, 59
Conditioning (habit growth) in the absence of CRs by K. W. Spence and E. Deaux, 61
Stimulus control of human systolic blood pressure by G. De Leon, 63
Operant GSR conditioning of high and low autonomic perceivers by W. A. Greene and T. C. Nielsen, 359

DISCRIMINATION LEARNING

- Comparison of anticipation and recall procedures in verbal-discrimination learning by W. F. Battig and R. W. Switalski, 65
The overlearning reversal effect in preschool children as a function of age by H. A. Cross and Zita E. Tyer, 175
Learning how to learn schemata by E. M. Edmonds, S. H. Evans and M. R. Mueller, 177
Human learning in a simplified contingent discrimination situation by M. Goldstein, 189
Comparative studies in simple oddity learning: II. Children, adults and seniles by P. N. Strong, Jr., 459
The function of stimulus meaning and ability level in discrimination learning by N. R. Ellis and W. W. Porter, 463
An empirical index for ease of reversal learning by Jenny I. Steinmetz and T. W. Turnage, 467
The role of dimension preference in reversal and nonreversal shifts of retardates by L. W. Heal, M. L. Bransky and R. L. Mankinen, 509
Analysis of errors in the discrimination learning of normal and retarded children by A. A. Baumeister, 515

SERIAL LEARNING

- Some physiological correlates of verbal learning task difficulty by J. L. Andreassi, 69
Isolation and perceptual organization in incidental learning by Gloria J. Fischer, 141
Effects of anxiety on dominant and nondominant intra-task responses: A modified replication by M. Katahn and Sally T. Koplin, 159

- Transfer with bilinguals by R. K. Young and J. Saegert, 161
Levels of energizing drive and learning of tasks of different difficulty levels by A. P. Purohit, 269
Subject strategies and the effect of MA on learning rate and acquisition patterns of serial verbal material by W. R. Blount and L. W. Heal, 369
Transfer from serial to continuous paired-associate learning by R. G. Crowder, D. D. Chisholm and D. A. Fell, 455
Effects of two components of syntax on rote verbal learning by W. Bogartz and M. Arlinsky, 517

PAIRED-ASSOCIATE LEARNING

- Paired-associate performance on successive recall-test trials as a function of number of successive pairing trials and stimulus elements by J. K. Berry and W. F. Battig, 67
Recognition operating characteristics as a function of prior recall confidence by B. A. Pappas and M. D. Suboski, 83
Transfer as a function of stimulus selection by R. K. Young, T. D. Teeters and C. Zelazny, 163
Test of a duoprocess paired-associate learning model in a simultaneous presentation situation by I. D. Nahinsky, 165
Comparison of three presentation methods in paired-associate learning by Janet P. Moursund and Catherine M. Chape, 167
Presentation rate and age effects on paired-associate recall over very brief intervals by Mary W. Laurence, 185
Test of a procedure to control inter-pair learning and the effect of repeated, post-criterion test trials on retention by W. E. Montague and H. O. Kiess, 191
Directionality, prior experience, and left-right habits in paired-associate learning by Marlene A. Segal and G. Mandler, 263
Bidirectional paired-associate learning and transfer effects in the A-B, C-B and A-B, A-C paradigms by L. R. Goulet and Victoria Behar, 299
A "clustering" technique for directly assessing concept learning by D. K. Chalmers, 361
Monitoring eye movements in nonlearning situations by P. D. McCormack, E. J. Haltrecht and T. E. Hannah, 371
Pronunciability rating and learning of doubly homogeneous paired-associate lists by W. G. Braud, P. Tolin and S. W. Holborn, 457
Monitoring eye movements of slow and fast learners by E. J. Haltrecht and P. D. McCormack, 461
Stimulus selection as a function of stimulus duration and letter color in paired-associate learning by F. M. Rabinowitz and Charlotte Robe, 507

REINFORCEMENT

- The acquisition of positive secondary reinforcement in human subjects by S. M. Levin and Kathleen Sterner, 47

- Learning a visual pattern discrimination with, and without, KOR by Louise B. Miller, 199
- Effects of reinforcement on retention and transfer by E. C. Jones, E. M. Edmonds and M. R. Mueller, 181
- The effects of schedules of training upon the development of a conditioned reinforcer by N. Kass, Ann Beardshall and Helen Wilson, 183
- Children's response speeds as a function of sex and verbal reinforcement schedule by T. J. Ryan and P. Watson, 271
- Knowledge of correct and incorrect items in verbal discrimination by E. A. Lovelace, 363
- Anxiety, and the suppressing effect of immediate punishment on a rewarded response by A. H. Shapiro, 373
- Effects of knowledge of results on mixed schema discrimination by E. M. Edmonds, M. R. Mueller and S. H. Evans, 377
- Heart rate response as a function of shock intensity by S. Ginsberg and R. V. Thysell, 475
- MEMORY**
- An urn model for recall order by T. M. Cowan, 169
- Attention and consolidation as factors in retention by E. Levonian, 275
- Immediate memory by missing scan and modified digit span by M. C. Madsen and J. M. Drucker, 283
- Short-term memory: Effects of acoustic similarity, presentation rate and presentation mode by K. R. Laughery and A. L. Pinkus, 285
- Forgetting of a simple motor task by W. L. Fox and C. A. Rogers, Jr., 301
- Short-term retention in normal and retarded children by J. F. Fagan III, 303
- The effect of the position of stimulus cueing on short-term memory by C. D. Corman, W. D. Bostic and D. D. Wickens, 305
- The effects of rehearsing analyzed information upon the retrieval of unanalyzed information by M. T. Turvey, 365
- Effects of spatial order and inter-item interval on recall of temporal order by D. E. Berlyne, 375
- Short-term memory for unbalanced dichotic lists by M. P. Bryden, 379
- Short-term memory in normal children and mental retardates by N. R. Ellis and Myrtle Munger, 381
- Recognition: Memory for words correctly heard in noise by P. Rabbitt, 383
- Simple rehearsal strategies for short-term recall by Muriel M. Woodhead, 385
- Unlearning as a function of degree of original learning and retention test by B. E. Garskof and T. M. Bryan, 391
- Recoding as a function of chunking and meaningfulness by R. H. Lindley, 393
- Words and pronunciation as coding aids by R. H. Lindley, 395
- Immediate and delayed retention, arousal, and the orienting and defensive reflexes by I. Maltzman, W. Kantor and B. Langdon, 445
- Visual presentation of stimuli in immediate memory by R. G. Crowder, 449
- MEDIATION**
- Mediated generalization and interference across five grade levels by J. K. Davis, 273
- The association value of random shapes revisited by R. Eisenman, 397
- Word arousal and verbal mediation by A. D. Yarmey, 451
- Effects of voluntary and involuntary mediation on estimates of short time intervals by E. C. Jones and R. L. Narver, 505
- VERBAL PROCESSES**
- Word-recognition threshold as a function of pretest sensitization by T. A. Nosanchuk and R. D. Hare, 51
- Tachistoscopic recognition thresholds and meaningfulness by W. Schutte and N. Hildebrand, 53
- Semantic generalization as a function of associative value of stimuli by S. Cole and R. L. Williams, 173
- Frequency spectra of the cries of normal infants and those with Down's Syndrome by V. R. Fischell and S. Karelitz, 195
- Word length and frequency as determinants of stuttering by I. M. Schlesinger, Rachel Melkman and R. Levy, 255
- Grammatical transformations and recognition memory of sentences by J. H. Koplin and J. Davis, 257
- Associative originality training in children by S. Simon, E. J. Lotsof and Helen Pease Wycoff, 259
- Extreme response bias and associative commonality by A. Z. Arthur and Anna Freemantle, 399
- Indicants of response strength hierarchies in continued word association by B. G. Andreas, 447
- Observations with self-embedded sentences by A. L. Blumenthal, 453
- Familiarity and meaningfulness in nonsense words by Janet P. Moursund, 501
- The relationships between judged similarity, judged association, and normative association by B. E. Garskof and W. Forrester, 503
- PROBLEM SOLVING**
- An information processing analysis of mental multiplication by D. F. Dansereau and L. W. Gregg, 71
- An instructional method for increasing originality by G. A. Davis and Mary E. Manske, 73
- Measuring equal increments of utility for money without measuring utility itself by E. Loewenton and R. D. Luce, 75
- Solving words as anagrams: A re-examined issue examined by H. Beilin, 77

- Word and nonsense anagram solution with tachistoscopic stimulus presentation by H. Beilin and H. L. Levine, 171
- Cardiovascular change and mental task gradient by D. Gibson and Maria K. Hall, 245
- Children's response alternation as a function of stimulus duration, intertrial interval, and trials by W. L. Croll, 247
- Information processing: The effects of differential pattern complexity and input rate by P. Suedfeld, 249
- Frequency ratios and oscillatory behavior in the two-choice situation by J. K. Brewer and F. J. King, 251
- Inferences about correlations by L. R. Beach and T. S. Scopp, 253
- Density and dimensionality in the attainment of conjunctive concepts by W. J. Krossner, 265
- Three-choice probability learning: Effect of varying information level by P. C. Green, 267
- An uncomplicated but difficult two-part learning set task by M. Goldstein and P. D. Wright, 479

SOCIAL PROCESSES

- Primacy-recency and the sequential presentation of attitudinal stimuli by D. Byrne and O. London, 193
- Self-evaluation in a simulated team by W. A. Johnston, 261
- Component ratings in impression formation by N. H. Anderson, 279
- Similarity versus liking: A clarification by D. Byrne and W. Griffitt, 295
- Modifying speed of group decision making without awareness of group members by W. D. Joslyn and T. J. Banta, 297

PHYSIOLOGICAL PSYCHOLOGY

- Effects of extreme heat stress on retention in the white rat by E. Smith, 127
Erratum, p. 334
- Lick rates in rats exposed to gamma-irradiation by R. W. Schaeffer and J. C. Smith, 201
- Cold acclimatization in hairless mice measured by behavioral thermoregulation by S. H. Revusky, 209
- Specificity of salt appetite elicited by hypovolemia by J. E. Jalowiec, J. E. Crapanzano and E. M. Stricker, 331
- Brain-Spinal cord ratios in porpoises: Possible correlations with intelligence and ecology by S. H. Ridgway, N. J. Flanigan and J. C. McCormick, 491

ELECTRICAL RECORDING

- Electromyographic gradients as a function of tracking cues by A. K. Bartoshuk and J. A. Kaswick, 43
- Slow potential changes recorded from human brain during learning of a temporal interval by D. W. McAdam, 435
- Discriminant analysis of "activated" EEG by J. M. Rhodes, D. O. Walter and W. R. Adey, 439

BRAIN LESIONS

- Effect of amygdaloid lesions on retention of an avoidance response in overtrained and non-overtrained rats by R. W. Thatcher and D. P. Kimble, 9
- Monocular acquisition and interocular transfer in albino rats with unilateral striate ablations by D. J. Creel and C. L. Sheridan, 89
- Amygdaloid lesions and social dominance in the hooded rat by B. N. Bunnell, 93
- Effects of bilateral lesions in the hippocampus on acquisition of two maze problems by Theresa A. Spiegel, Gayle Hostetter and G. J. Thomas, 205
- Septal forebrain lesions and social dominance behavior in the hooded rat by B. N. Bunnell, J. R. Bemporad and Carol K. Fleisher, 207
- Vision in tree shrews (*Tupaia glis*) after removal of striate cortex by M. Snyder, W. C. Hall and I. T. Diamond, 243
- Variables associated with a pentobarbital-induced sleep response by R. A. Levitt and W. B. Webb, 431
- Septal lesions and aggressiveness in the cotton rat, *sigmodon hispidus* by B. N. Bunnell and M. H. Smith, 443

BRAIN STIMULATION

- Effects of low-level stimulation of the septal area on two types of discrimination reversal in the rat by P. J. Donovick and J. S. Schwartzbaum, 3
- Self-stimulation with monophasic current in the rock squirrel and rat by Mary C. Wetzel and J. E. King, 7
- Incubation and its implications for the interpretation of the ECS gradient effect by J. P. J. Pinel and R. M. Cooper, 123
- The relationship between incubation and ECS gradient effects by J. P. J. Pinel and R. M. Cooper, 125
- Pattern discrimination learning set formation in rats with brain stimulation as a reinforcer by R. N. Johnson, 315
- Preference of water-deprived rats for stimulation of the lateral hypothalamus rather than water by C. W. Morgan and G. J. Mogenson, 337
- Intracranial brain stimulation and suppression of behavior by F. P. Gault and J. B. Appel, 403

DRUG AND CHEMICAL EFFECTS

- Drugs and avoidance performance by J. Pearl, M. D. Aceto and J. J. Fitzgerald, 41
- The effect of hypoxia upon learned escape from carbon dioxide by S. A. Weinstein, 91
- Chlorpromazine-methamphetamine antagonism in a non-discriminated avoidance schedule by H. Brown, 95
- Effects of post-trial eserine administration, age and task difficulty on avoidance conditioning in rats by Barbara A. Doty and Margo M. Johnston, 101
- Some effects of injections of ribonucleic acid by J. A. Corson and Hildegard E. Enesco (Vol. 5, p. 217)
Erratum, 334

- The effect of RNA on experimentally induced memory impairment by C. Beaulieu, 339
 The effect of RNA on the operant conditioned behavior of white rats by L. Solyom, C. Beaulieu and Hildegard E. Encso, 341
 Effects of apparatus adaptation and ethanol upon runway performance by K. A. Wollen, A. R. Dobbs and R. L. Schalock, 347
 The effect of spreading depression on a simple discrimination task by W. J. Potts and W. C. Black, 349
 The differential effects of conditioned stimulus intensity and chlorpromazine on avoidance by H. L. Chipman, 413
 Improvement of sustained attention with Cylert by G. A. Tolland, 493
 Reagent grade yeast RNA injections and rat performance on the Hebb-Williams maze by J. R. Ison and P. Taplin, 495

ANIMAL BEHAVIOR

Albinism and audiogenic seizures in the mouse by K. Gutherz and D. D. Thiessen, 97

SLEEP AND ACTIVITY

- Diurnal fluctuations in the discharge frequency of a gymnotid electric fish by D. A. Dewsbury, 35
 The effect of differential feeding histories on the distribution of home cage activity by R. K. Lore and N. Jane Gershaw, 213
 The effects of high intensity white noise on the sleep pattern of the rat by H. B. Van Twyver, R. A. Levitt and R. S. Dunn, 355
 The effect of activity deprivation upon subsequent activity by H. E. Marks, R. L. Narver and C. C. Bridges, 423

MOTIVATION

- Stimulus intensity and the magnitude of the licking reflex in rats by S. H. Hulse, 33
 Adaptation to three types of water-deprivation schedules in the hooded rat by C. L. Kutscher, 37
 A comparison of drinking in the normal and nephrectomized hooded rat by M. J. Wayner and Julia J. Burger, 99
 Heart rate, defecation and genetic differences in rats by G. M. Harrington and J. R. Hanlon, 425
 Stimulus control through the licking response by R. J. Senter, D. Munz and E. Elmer, 489

PREFERENCE

- Form preference in rats by G. M. Harrington, 13
 Two-bar sucrose preference by G. Collier, J. Vogel and F. Rega, 203
 A procedure for eliminating position habit in preference-aversion tests for ethanol and other fluids by R. D. Myers and R. B. Holman, 235

- Development of preference for differentially complex patterns by infant monkeys by G. P. Sackett, 441

DISCRIMINATION

- A comparison of two discrimination-reversal indices intended for use with diverse groups of organisms by D. M. Rumbaugh and M. A. Jeeves, 1
 Escape from conflict: I. The effects of increasing difficulty of discrimination by T. J. Tighe and R. N. Leaton, 129
 Interocular transfer in albino and pigmented perinatal guinea pigs by Clarene C. Petre and C. L. Sheridan, 215
 Brightness difference thresholds in the pigeon using the conditioned suppression technique by S. A. Shumake, C. Ann Hatfield and J. C. Smith, 313
 Discrimination of speech stimuli by the mynah bird: A vocal FR test by J. H. Grosslight, W. C. Zaynor, Leonora Terhune and W. McNeill, 345
 Stimulus generalization of response-position in the rat by L. R. Gollub, 433

CONDITIONING

- Conditioned jaw movement in the rabbit: Deprivation procedure and saccharin concentration by S. R. Coleman, M. M. Patterson and I. Gormezano, 39
 Facilitation of classical conditioning in rabbits by reinforcing brain stimulation by A. Bruner, 211
 Heart rate classical conditioning in rabbits by N. Schneiderman, M. C. Smith, Abby C. Smith and I. Gormezano, 241
 Conditioned galvanic skin response in the chick embryo: Preliminary report by R. Fried and Susan Gluck, 319
 Erratum, 496
 Habituation of the GSR and of breathing disturbances in the cat by D. D. Wickens, A. F. Nield and Carol D. Wickens, 325
 Spontaneous recovery of a classically conditioned response by planarians by F. T. Crawford and L. W. King, 427
 Classical conditioning of heart-rate deceleration in the rat with continuous and partial reinforcement by R. D. Fitzgerald, R. M. Vardaris and J. S. Brown, 437

MAZE LEARNING

- The tendency to alternate direction of movement as reflected in starting stem running speed by M. F. Sherrick and W. N. Dember, 29
 Trial-two goal arm alternation to orientation of trial-one starting stem by W. N. Dember, M. F. Sherrick and R. P. Harris, Jr., 31
 Genetic specificity in maze performance by G. M. Harrington, 103
 The effect of disparity in visual cues on the goal gradient and the anticipatory gradient in the rat by R. Fried, 117

Trial-two goal arm alternation to direction of movement in trial-one straight alley by M. F. Sherrick and W. N. Dember, 317

ESCAPE AND AVOIDANCE

A rapidly acquired avoidance response in rats by R. Clark, 11

Retention of an incompletely learned avoidance response: Some problems with replication by D. C. Anderson, L. Johnson, G. Schwendiman and G. Dunford, 23

Probability learning to avoid shock by T. J. Boll, H. L. Madison and Margaret C. Douglass, 25

Conditioned suppression maintained by loud noise instead of shock by J. F. Brody, Jr., 27

Durable maintenance of behavior during concurrent avoidance and punished-extinction conditions by J. Sandler, R. S. Davidson and E. Malagodi, 105

Conditioned suppression in the rat as a function of shock reinforcement schedule by R. D. Willis and R. W. Lundin, 107

Persistence to continuous punishment as a function of amount of reinforcement by D. P. Ferraro, 109

Total darkness as an aversive stimulus condition for the squirrel monkey by C. E. Parker, 111

The role of the CS-US interval in bar press avoidance learning by R. C. Bolles, J. A. Warren, Jr. and N. Ostrov, 113

Escape and avoidance responding in the toad by F. T. Crawford and J. W. Langdon, 115

Temporal variables and trial discreteness in lever-press avoidance by M. Cole and E. Fantino, 217

Concurrent schedules of reinforcement and punishment by Diane De Armond-Edwards, 219

Combined sources of motivation and escape responding by J. J. Franchina, 221

Response contingent shock and avoidance conditioning by P. S. Kurtz and J. N. Shafer, 223

Adaptation to the conditioning chamber in multi-session avoidance learning by P. S. Kurtz, J. N. Shafer and V. A. Hardesty, 225

Discriminated lever-press avoidance by E. C. Jones and A. M. Swanson, 351

Ply durations in a multiple punishment schedule by Diane D. Edwards and Gail A. Dart, 353

The effect of strain of rats on the acquisition of a discriminated avoidance response by H. M. B. Hurwitz and P. V. Dillow, 401

An automated one-way avoidance box for the rat by S. S. Tenen, 407

The effect of intertrial interval on avoidance learning in fish by G. A. Pinckney, 497

REINFORCEMENT

The effect of a response-contingent stimulus varying temporal placement by J. Farmer and W. N. Schoenfeld, 15

Relationship of reward quantity to vigor of r_g by R. L. Williams and S. Cole, 17

Response rate of turtles to fixed ratio reinforcement by F. T. Crawford, Perrie M. Adams and J. M. Whitt, 19

The effect of spatial separation of response and reinforcement on DRL performance by C. D. Corman and J. N. Shafer, 21

Latent learning and the partial reinforcement effect by E. C. Jones, 119

The effect on choice behavior of cues paired with noncontingent reward by R. L. Patten and J. W. Rudy, 121

Effect of post-reward confinement on choice behavior by J. Bowen, 131

The effect of patterns of partial reinforcement upon the response to frustrative non-reward by J. H. Grosslight, D. C. Riccio, W. C. Zaynor and M. Rohrbaugh, 227

Patterning at 24-hr ITI: Resolution of a discrepancy more apparent than real by E. J. Capaldi and D. Lynch, 229

Facilitation of variable interval performance by intermittent conditioned reinforcement by E. F. Malagodi, 231

A pigeon magazine shutter for preventing unprogrammed grain reinforcement by W. R. Leckrone, J. Zimmerman and P. V. Hanford, 239

Change in the stimulus produced by nonreward as a function of time by E. J. Capaldi and R. Minkoff, 321

Incentive value and number of food units by E. Furchtgott and D. M. Wildasin, 323

Probability-matching in the goldfish by Erika R. Behrend and M. E. Bitterman, 327

Learning a single alternation of running speeds in a runway without handling between trials by Joyce H. Harris and G. J. Thomas, 329

An application of Premack's theory to behaviors associated with a FFI food schedule by R. W. Schaeffer, Judith C. Diehl and C. L. Salzberg, 405

Temporal persistence of frustration effects in monkeys and rats by J. W. Davenport, C. F. Flaherty and J. P. Dyrud, 411

Double intermittent reward scheduling and secondary reinforcer strength by D. G. Davenport and R. J. Sardello, 417

Strain differences and positive reinforcement with shock by G. M. Harrington and G. R. Kohler, 419

Reminiscence and partial reinforcement in a discrete bar press situation by M. E. Thompson, 481

Competing responses and the partial reinforcement effect by E. C. Jones and C. C. Bridges, Jr., 483

Differential conditioning with nondifferential reinforcement by J. H. McHose and H. W. Ludvigson, 485

Pause and rate effects in multiple-reinforcement fixed ratio schedules by D. E. Mintz, D. J. Mourer and Laura S. Weinberg, 487

EXTINCTION

- Immediate reward followed by extinction vs. later reward without extinction by E. Fantino, 233
Post-reinforcement delay in extinction: A failure to replicate by D. C. Cogan, 343
Resistance to extinction as a function of the width of a tube alley by D. Robbins, 409
Resistance to extinction following exposure to a complex situation by L. S. Hommel and H. B. Altman, 415

PROBLEM SOLVING

- Performance of immature and adult cats on the Hamilton search test by J. M. Warren and Helen B. Warren, 5
Concept learning with one relevant dimension in the squirrel monkey by H. Wells and K. Deffenbacher,

237

- Conflict induced fixation of stereotyped lever pressing responses by H. Lal, 333
Delayed response by squirrel monkeys under various delay lighting conditions by J. E. King and Jo Ann R. Clawson, 429

SOCIAL FACILITATION

- Social facilitation and sensory deprivation in operant behavior of rats by V. Pishkin and J. T. Shurley, 335
Social facilitation of eating behavior in young opossums: I. Group vs. solitary feeding by J. J. Platt and W. T. James, 421
Social facilitation of a previously learned response in normal, hypoglycemic, and alloxan diabetic rats by J. W. McDaniel and S. J. Clayson, 499
